Boards&Beyond®

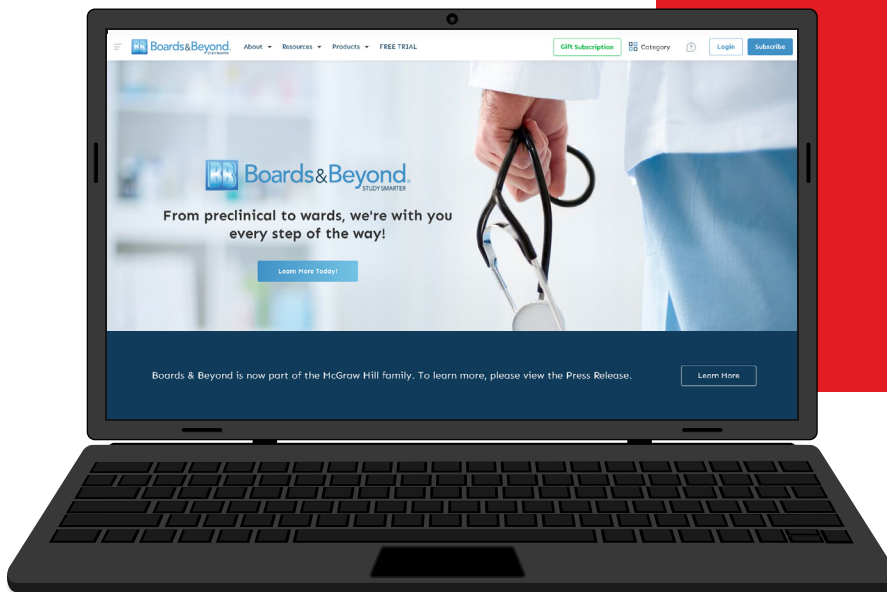

What is Boards & Beyond?

Boards & Beyond supports medical students with on-demand video libraries and question banks designed to build a solid foundation of understanding that goes beyond memorization. Designed and taught by Dr. Jason Ryan, a board-certified cardiologist and award-winning educator with over a decade of teaching experience, Boards & Beyond products are used by students in the US and around the world to supplement their classes and prepare for board exams, core clerkships, and successful careers.

**Used by
110,000+
students
world wide**

**700+ videos
& 3,600
USMLE-styled
questions**

Explore the Boards & Beyond product library

 **STEP 1-PRECLINICAL** provides an online virtual curriculum to supplement M1 and M2 coursework and builds students' foundation in all pre-clinical subjects. Instead of buzzwords and mnemonics, we emphasize understanding of the basic and clinical sciences, so students can **STUDY SMARTER** for success in medical school and on board exams. Step 1-Preclinical includes **more than 440 videos and over 2300 USMLE-style questions**, as well as progress tracking, custom quizzes & playlists, and slide PDFs.

If preparing for Step 1, students can use Boards & Beyond with the confidence of an "A" rating from *First Aid for the USMLE Step*

1. Many students annotate in *First Aid* as they watch, using the page references listed with each video to follow along.

 **STEP 2-3-CLINICAL** expands students' foundation into clinical topics, including in-depth discussions of diagnosis and treatment that will help them excel during clinical rotations and on the USMLE Step 2 CK and Step 3 exams. Dr. Ryan illustrates the connections between the mechanisms studied and the actual treatment decisions students will make as doctors. Step 2-3-Clinical includes more than 260 videos and over 1300 USMLE-style questions, as well as progress tracking, custom quizzes & playlists, and slide PDFs.

 **THE WARDS SERIES (COMING SOON)** For our new Wards Series, Dr. Ryan has brought together a team of premier physicians who will share their expertise in the different specialties students will face during their clinical rotations and residencies. They provide insight into what it's like by sharing practical details about the things that aren't covered in textbooks or board exams. The Wards Series isn't about passing tests or doing well in class – it's about the real-world application of knowledge when treating patients for the first time, as well as working as part of a team in a hospital setting. The Wards Series is ideal for:

- Medical students going on clinical rotations for the first time
- New graduates and IMGs getting ready for Residency
- Anyone who wants to prepare for all of the things not covered in classes and on exams

USMLE Prep

- ✓ Step 1
- ✓ Step 2
- ✓ Step 3

Help your students study smarter with Boards & Beyond

Flipped Classrooms

Boards & Beyond makes it easy to set up flipped classroom sessions. The flipped classroom approach is shown to improve student learning and optimize your face-to-face teaching time.

Faculty Tools

Institutions also have the opportunity to opt-in to our new Faculty Tools functionality with any Institutional Subscription. It allows instructors to invite their students into a private educational group where they can assign specific video playlists and custom quizzes. Instructors may create an unlimited number of groups, and can invite a TA to assist with creating assignments, monitoring student progress and communicating with the class.

Remedial Assignments

Guide students who are struggling with challenging concepts (such as biochemistry, genetics, or physiology) towards the exact content they need, with videos that explain complex topics in plain language, and USMLE-style questions to consolidate their understanding with explanations of both correct and incorrect answers.

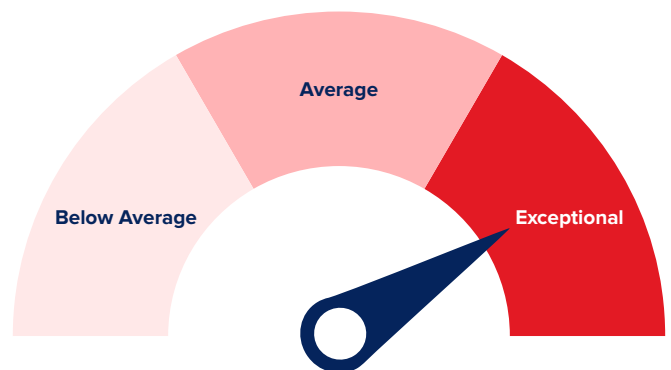

Self-Directed Learning

Give students access to a full library of lectures and questions to make use of any time they want to put extra time into studying a particular topic, whether for class, to prepare for clinical rotations, or to study for Board exams. With the ability to create custom playlists and quizzes, students are empowered to discover their own unique paths to learning.

Use Boards & Beyond to:

- Supplement your curriculum
- Enable self-directed study
- Help students excel on USMLE and COMLEX Board exams
- Boost performance in clinical rotation

The Content Solution in Detail

Video content that explains high-yield topics in ways that encourage understanding & mastery rather than just memorization

Question banks with USMLE & COMLEX-styled questions

Free access to downloadable PDF files containing all PowerPoint slides

Flag favorite videos for easy review later

Searchable topic index

Quiz performance tracking

Type and save notes online while you watch videos

Immediate access to new and updated content

Mobile access via browser on iPhone, iPad, and Android devices

Technical and customer support

Benefits for Faculty

(Institutional Subscriptions Only)

Boards & Beyond offers a unique opportunity for faculty members to customize their curriculum to meet the learning needs of their students --improving classroom engagement and overall outcomes. Instructors will have the capacity to leverage the solution's Faculty Tool feature and other supporting functionality to enable self-directed studying, flipped classroom styles & the creation of remedial assignments.

- Invite students into private educational groups where faculty can assign specific video playlists and custom quizzes
- Enhance curriculum and classroom lecture experience, while closing learning gaps and strengthening outcomes
- Link and re-purpose content (videos, slides, questions, etc.)
- Enable self-directed study
- Offer flipped classrooms
- Create remedial assignments, specifically for struggling students
- Help students excel on USMLE and COMLEX Board exams
- Boost performance in clinical rotation
- Appoint Group Admin and set up Groups in web app
- Invite other Group Admins (teaching colleagues) to share responsibility for your Groups
- Send assignments to the entire Group or to individual students within the Group
- Review student progress on quizzes
- Exchange messages with the entire Group or individual students within the Group

Benefits for Students

Medical students find great value digital learning platforms that supplement their classroom instruction. Boards & Beyond uses a mix of high-yield, expert developed video content, easy to understand teaching styles & vast question banks to help students advance in their medical education.

- **Fills in knowledge gaps** to contribute to a more comprehensive and complete learning experience
- **Focuses on the “why”** students need to know with clever explanations to ensure the information sticks
- **Identifies what’s important** for students to know
- **Improves student learning outcomes and engagement** by making it easy to set up flipped classroom sessions
- **Guides students who are struggling** with challenging concepts towards the content they need
- Delivers high-yield video content and extensive coverage of basic & clinical topics that are **developed & reviewed by practicing medical experts**
- Offers vast collection of **USMLE & COMLEX –styled question banks** with explanation of both correct and incorrect answers to reinforce comprehension and track progress
- **Gives students access to a full library** of lectures and questions to make use of extra time studying a particular topic, whether for class, to prepare for clinical rotations, or to study for Board exams
